

Childhood Immunization Status (CIS-E)

2025

Children who turn 2 years of age during measurement year

COMMERCIAL | MEDICAID

Measure definition

Members who had the following vaccines by their second birthday:

- 4 diphtheria, tetanus and acellular pertussis (DTaP)
- 3 polio (IPV)
- 3 hepatitis B (Hep B)
- 1 measles, mumps and rubella (MMR)
- 3 haemophilus influenza type B (HIB)
- 1 chicken pox (VZV)
- 4 pneumococcal conjugates (PCV)
- 1 hepatitis A (Hep A)
- 2 **or** 3 rotaviruses (RV)
- 2 influenza vaccines (Flu)

For documented history of illness or anaphylaxis, there must be a note indicating date of event, which must have occurred by the member's second birthday.

Medical record requirements

- Member legal name and date of birth
- Provider/practice identifier
- Provider Business Group (PBG) name and number
- Date of service (DOS)
- Applicable lab/test results and date collected

Commonly used claim codes*

(Not all inclusive; can submit through electronic clinical data systems)

- Anaphylactic due to diphtheria, tetanus or pertussis vaccine: **428281000124107** SNOMED
- Human immunodeficiency virus (HIV): **B20**
- Post tetanus vaccination encephalitis: **192710009** SNOMED

Medical record submission methods may not be applicable to all plan types.
For more details, you can reach out to your HEDIS plan representative.

Required exclusions (Other exclusions may also apply)

- Members in hospice or who used a hospice benefit in measurement period
- Members who died anytime during measurement period
- Members who had a contraindication to a childhood vaccine (Do not include laboratory claims) or organ and bone marrow transplants on or before their second birthday

Insights and recommendations

- Schedule follow-up vaccinations/doses at same time
- Emphasize the importance of vaccinations
- Administer Combo 3 and Combo 10 before child's second birthday
- Proper documentation is crucial to ensure vaccinations are recorded correctly
- Notation with specific name of antigen and date of immunization meets criteria
- Documented history of illness or seropositive test result must have date of event and must occur before member's second birthday
- Documentation that member received immunization "at delivery" or "in the hospital" meets criteria for vaccines that don't have age restrictions
- Documentation of anaphylaxis to any of required vaccines meets criteria for given vaccine
- If rotavirus doesn't indicate whether two-dose or three-dose, assume three-dose schedule
- Refusal of vaccines doesn't count as an exclusion

*FOR COMMONLY USED CODES: Not a comprehensive list of codes.

For measures that require claims data only, we cannot accept supplemental data sources such as data feeds and medical record collection methods.
